

Fast, Affordable and Green
The Perfect Solution!

Modular Vision Towers

Provide your team leaders, supervisors or production managers an unobstructed view to your operations.

Our Vision Towers are an excellent solution for providing unobstructed supervisory or security views while maximizing the use of expensive floor space below. All Vision Towers are built on heavy-duty structural steel mezzanines and typically sit 5 ft. to 12 ft. above ground level. Combined with Allied's modular wall systems, its easy to design and configure any structure to meet your company's requirements.

Our products are engineered to comply with the seismic zone requirements in your area so you can be completely confident in your choice.

2" and 4" Thick walls.
Perfect for all applications.

V-Tex™
Powder coat color match system.

We're Green!
LEED Certified Staff.

Safety and Quality
Built In.
